

Innovation to cure

# BestFit™ 2 Full Face Masks

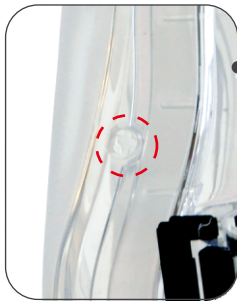

Advanced Cushion Design allows active control of the seal. The specialized vent ports disperse airflow efficiently and quietly. Advanced comfort and fit mean greater user compliance.

Adjustable forehead support system; helps to minimize leaks and adds to your comfort.

Endoscope access port allows endoscopy procedure in conjunction with ventilation.

Special feeding tube connection port provides freedom of movement without leakage.

Advanced specialized exhaust port design means a quiet experience for you.

Personalized cushion design means a personal seal for each person. The mask feels so comfortable you think it was made just for you.

A built-in safety valve automatically opens during non-invasive ventilation if more flow is needed.

A non-vented blue elbow option is available for non-leak ventilation.
